

Italian Courses at Fermilab

“E quindi uscimmo a riveder le stelle.”

We are happy to announce that the Cultural Association of Italians at Fermilab (CAIF) will be offering lectures of Italian for beginners. This introductory course will cover the alphabet, sounds, basic grammar and conversation. Because this is a beginner course, there are no prerequisites. A few CAIF members are experienced on such lecturing and are available for tutoring.

We are planning on forming groups of 3-4 students per instructor. Courses will be held for two months, teaching basic grammar and conversation skills.

The continuation of the courses will be based on participation and feedback of the first course.

Lessons will be held for one hour a week, preferably during lunch time. The time and day will be agreed upon with the students. If you are interested in participating please email Omar Al Atassi (oolatass@fnal.gov).

As soon as we reach the minimum required students we will start a doodle to arrange a day and hour. Additional conversation groups will also be available during weekends.

This course is FREE and everyone is welcome to sign up.

Ci vediamo presto!

(See you soon!)

Omar Al Atassi on behalf of CAIF
